I am considering buying a 2009 BMW 128i Coup which has 93,800 miles. The interior is exceptionally clean and there is a few paint chips (gravel likely caused) on the front nose. It is automatic with manual shift available. It is a two owner and the last owner (primary) driver/ was a 17 year old female.

Diagnosing a Failing BMW Vanos System - When to Repair ...

The BMW light control module, commonly known as the LCM, lamp control module, or light check module, is an extremely common part that fails on the BMW E38 and E39. What is it, how does it work, and why does it fail? Once upon a time, a light switch in a car simply completed a circuit between the battery and a bulb, or sometimes the battery to a relay which activated the battery/bulb circuit.
