Modern Control Systems | Richard C. Dorf, Robert H. Bishop ...

Modern Control Systems provides a basic introduction to classical control systems and methods. The topics covered include: open-loop systems, closed-loop feedback systems, transfer functions, stability analysis (absolute and relative stability), Root Locus methods, Routh-Huritz stability criterion, frequency and time domain responses, and Bode and Nyquist plots.

Modern Control Systems by Richard C. Dorf

Modern Control Systems: International Edition by Richard C. Dorf This text is designed for an introductory undergraduate course in control systems for engineering students. There is very little demarcation between aerospace, chemical, electrical, industrial, and mechanical engineering in control system practice: therefore this text is written without any bias towards one particular discipline.
