### Are Lovebirds Good as Pets? The Pros and the Cons

To ensure the good health of breeding parakeets and their babies, a male and female pair should be unrelated, free of disease and birth defects, and at least 1 year old. Nesting Requirements A cage for a pair of breeding parakeets should be a minimum size of 20 by 20 by 20 inches and should contain a wooden nest box that is at least 12 by 12 ...

### Breeding Your Own Parakeets

Often after a long separation or stressful period of time, breeding pairs of lovebirds feed each other to re-establish their bond. One bird transfers food to the mouth of its mate, a feeding ...

### 14 Fun Facts About Lovebirds | Science | Smithsonian Magazine

A nest box is an essential component in lovebird breeding. Upon learning that Lulu laid an egg, we immediately bought a nest box. The pet owner had mistakenly given a round nest made out of steel, which was actually meant for canaries. Surfing the net, I realized that lovebirds need wooden nest boxes.

### Lovebirds' Egg-Laying Process: A Personal Experience ...

There are nine species of lovebirds, and all belong to the genus Agapornis, though only a few are typically available as pets; namely the peach-faced, masked and Fischer's lovebirds.Lovebirds are so named because of their strong pair bonds. Lovebirds range in size from just over 5 inches to just over 6½ inches, which makes them among the smaller parrot species.

### Lovebird Personality, Food & Care - Pet Birds by Lafeber Co.

Lovebirds are very active birds, so a cage best suited to adequately house them must provide a lot of space. Remember, they are extremely active birds. A minimum of 32" x 20" x 20" (81 x 50 x 50 cm) per pair of birds is recommended with about four perches, feed and water dishes and an area for a bath.

### Bird Care Guide: Lovebirds • MSPCA-Angell

Before Breeding . If you're interested in breeding zebra finches, first make sure you have the time and means to care for the birds. If you don't plan to keep the offspring, secure homes for the baby birds prior to breeding. Irresponsible breeding has left many animals homeless in shelters and rescues.
