Global Capitalism And The Crisis

Building on his earlier works on globalization, William I. Robinson discusses the nature of the new global capitalism, the rise of a globalized production and financial system, a transnational capitalist class, and a transnational state and warns of the rise of a global police state to contain the explosive contradictions of a global capitalist system that is crisis-ridden and out of control.

Global Capitalism and the Crisis of Humanity by William I ...

The multifaceted nature and multiple dimensions of the global crisis/crises of capitalism relate to the financial and 'real economy' crises, growing unemployment and poverty crises; food supply/price crises and related hunger and health crises; energy and other resources extractions and environmental damages, ecological destructions, climate change and 'natural' disasters.

'The crisis' and the crisis of global capitalism ...

In Global Capitalism and the Crisis of Humanity, sociology professor William I. Robinson enlarges his focus on the impacts of the system evolving under capitalism. A mix of crises that approach systemic proportions is in motion, he argues, threatening "the ability of billions of people to survive, and raises the specter of a collapse of world civilization and degeneration into a new 'Dark ...

Global Capitalism and the Crisis of Humanity | YaleGlobal ...

During this second stage of the global capitalist crisis, the fiscal troubles of the state were effectively transformed into a full-blown crisis of legitimacy. From financial crisis to civil strife. In 2011, the world witnessed the outbreak of mass protests fueled by a combination of acute political and economic grievances.

Global Capitalism and the Crisis of Humanity, (Cambridge University Press, 2014), pp. 258. Reviewed by: Aldo Caliarì (Director, Rethinking Bretton Woods Project, Center of Concern) Eight years after the global financial crisis, the world economy continued on a path of slow-paced growth that no amount of central bank's unconventional measures seems to be able to lift.

Review of "Global Capitalism and the Crisis of Humanity ...

The crisis involved a contradiction that was largely internal to the Keynesian model of capitalism (wages were being pushed up faster than productivity growth, and destroying profits), and an ...

The last global crisis didn't change the world. But this ...

The global crisis of capitalism, has been brewing for some time and is a structural crisis of "informational capitalism" It will not bring down capitalism, according to renowned scholar Manuel Castells, "but is going to change it fundamentally".

GLOBAL: The global crisis of capitalism

Global Capitalism, Global War, Global Crisis By Andreas Bieler and Adam David Morton Cambridge: Cambridge University Press, 2018. This book takes up three of the greatest challenges facing humanity today, in a highly readable analysis whose major theoretical contributions are belied by its title.

Review - Global Capitalism, Global War, Global Crisis

'As tensions and confrontations rise, it is incumbent upon us to understand the intrinsic relations of global capitalism, global war, and global crisis. Feminist political economists share with historical materialists the concern for the increasing reach of capitalist exploitation within households, states, at the border and in zones of conflict and post-conflict.

Global Capitalism, Global War, Global Crisis

Global Capitalism and "The Economic Landscape" The crisis redefines the structure of the global economic landscape. It destabilizes small and medium sized enterprises Worldwide, it precipitates entire sectors of the global economy including air travel, tourism, retail trade, manufacturing, etc. into bankruptcy.

It destabilizes small and medium sized enterprises Worldwide, it precipitates entire sectors of the global economy including air travel, tourism, retail trade, manufacturing, etc. into bankruptcy.

Global Capitalism, "World Government" and the Corona Crisis

Global Capitalism's Structural Crisis All the telltale signs of an overaccumulation crisis have been present for some time. Capitalist globalisation since the late 1970s has pushed the global working and popular classes onto the defensive and shifted the global balance of class forces in favour of transnational capital following the period of mass struggles in the 1960s and 1970s.
