Introduction to Logic and Computer Design : Introduction to Logic Design, 2/e : Introduction to Logic Design, 3/e

Marcovitz
This book was required for an Introduction to Digital Design class (I am currently about one third into the class), and the book was only used for the homework. Since there wasn't really any assigned reading, the book wasn't the best for homework reference, so much as a tool to review material that was taught in the lectures.
