Managing Laboratory Workflow for Quality & Efficiency | Artel

Increased visibility of laboratory operations to management can be unnerving, especially for managers who have previously been more focused on the science than the business of the laboratory. To prepare for increased exposure, managers must develop a strategy and a realistic implementation plan to enable their operations to meet or exceed their organizations' demands.

The Analytical Lab As Strategic Asset | Lab Manager

The elements are typically defined within the framework of a quality assurance program that is meant to fulfill management responsibility for the quality of the lab's outputs, assure analysts of the quality of their work, inform clients of the quality of data,
