only legal in California for racing vehicles, which may never be driven on public highways or waterways. Keihin carburetors are designed to be used with normal pump gasoline. Fuels that contain over 10% alcohol content may damage parts in the carburetors. This may prevent the carburetor from functioning properly.

suggestion needed |

It Is ...

The small pilot jet inside of these small carburetors tends to clog if you leave gas in the carburetor without riding for 2-3 weeks.

Many we talk to attribute this to ethanol content in the gasoline. Install a manual Fuel Shutoff Valve. It's a good idea to install a manual inline fuel shutoff valve between your tank and
