Crime Busters Study Material The Crime Busters event is back- and it's more exciting than ever! If you've coached this event before, you'll see that some of the improvements may present new challenges for event coaches (but it's worth it). Our Event Supervisors invest many hours creating and providing additional resources and study materials.

Crime Busters Description: To determine who committed a crime, students will analyze clues that may include testing of unknown powders, paper chromatography to identify ink, matching fingerprints, shoeprints or tire tracks.

Crime Busters - Macomb Science Olympiad

Forensics is a Division C chemistry event that involves identification of powders, polymers, fibers, and hair samples, blood serum and fingerprint analysis, and interpretation of chromatography. Given a scenario and some possible suspects, students will perform a series of tests. These tests, along with other evidence or test results, will be used to solve a crime.

Forensics - Wiki - Scioly.org - Science Olympiad

Participants will complete lab activities and answer a series of questions related to the materials science of polymers and plastics with an emphasis on chemical structure, reactivity and behavior.
