5 Key Factors to Consider When Evaluating ERP Software | TEC

A critical evaluation may refer to a written essay or simply a specific mode of thinking. The main feature in either case is critical analysis, which relies on questioning beliefs or assertions. In other words, a critical evaluation tests the validity of a claim. Factors such as objectivity and reliability are thus important.

What is a Critical Evaluation? (with pictures)

Evaluation Criteria is the standards by which accomplishments of required technical and operational effectiveness and/or suitability characteristics or resolution of operational issues may be assessed. The criteria will normally be stated in Section M of a Request for Proposal (RFP) ...Continue Reading→
