The Strait Of Malacca Formula

The Strait of Malacca or Straits of Malacca is a narrow, 890 km stretch of water between the Malay Peninsula and the Indonesian island of Sumatra. As the main shipping channel between the Indian Ocean and the Pacific Ocean, it is one of the most important shipping lanes in the world. It is named after the Malacca Sultanate that ruled over the archipelago between 1400 and 1511, the center of administration of which was located in the modern-day state of Malacca, Malaysia.
